Foundational Principles ／ 建校精神

—Building Character through Buddhism—

The founding spirit of Musashino University lies in our character building education, which is based on the "four great vows" (known as *shiguzeigan* or *hotoke no negai*) that underpin the fundamental principles of Buddhism. According to Dr. Junjiro Takakusu, an internationally renowned Buddhist scholar who is also the founder of Musashino University, the character of a person is built when he or she has lofty ideals, and having a stronger character in turn brings about the emergence of even loftier ideals*. He upheld the Shakyamuni Buddha, the founder of Buddhism, as the ideal of human character, and preached that the true meaning of life lies in our journey toward building our characters in order to achieve that ideal. Hence, the objective of education at Musashino University is to build character, based on the ideal propounded by the "four great vows" and to embody the ideal of these "four great vows" by achieving character improvement.

*Junjiro Takakusu, *Sei no jitsugen toshiteno bukkyo* (1924), *Daiyukaku*.

—依照佛教进行人格教育—

学校法人武藏野大学的建校宗旨是以佛教的基本精神"四弘誓愿"（佛祖的誓愿）为基础，致力于对学生施以人格教育。大学创始人、国际佛教学者高楠顺次郎博士说："理想远大，人格就高尚；人格高尚，理想就远大※"。他推崇佛教始祖释迦牟尼为理想人格，提倡大家以此为目标，走修身向上之路，认为这才是人生的意义所在。因此，武藏野大学的教育目标就是培养学生以四弘誓愿为本，努力提升人格，实现佛祖的理想。

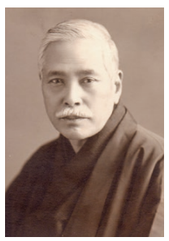

※ 高楠顺次郎《人生自我实现的佛教》大雄阁，1924

Founder Dr. Junjiro Takakusu
[1866–1945]

An internationally renowned Buddhist scholar, Dr. Takakusu founded Musashino Women's College—the parent school of Musashino University—based on the ideal of developing human character according to the spirit of Buddhism. He was also a pioneer who understood the need for women's education and took a positive view toward women stepping out into society and taking on an active role. He received the prestigious Order of Culture in 1944.

Under the philosophy of the "four great vows," the fundamental spirit of Buddhism, and under the premise that ourselves and others are intimately connected, we have declared our Brand Statement, "Creating Peace & Happiness for the World" to embody the belief that the ideal world will be established where each of us sincerely seeks not only our own happiness, but the happiness of others.

Using the 2024 100th anniversary of its founding as a springboard, Musashino University is committed to fulfilling the mission imposed upon it, and our Brand Statement, "Creating Peace & Happiness for the World" is an expression of that commitment.

基于佛教基本精神"四弘誓愿"的理念，即在自我与他人紧密相连的前提下，不仅要寻求自己的幸福，还要真挚地寻求他人的幸福，我们将切实构建所追求的理想世界。为了体现这一理念，我们提出了品牌宣言"创造幸福 感动世界"。

武藏野大学将以建校 100 周年的 2024 年为腾飞节点，下定决心向 2050 年的未来迈进，完成我校的使命。品牌宣言"创造幸福 感动世界"正是这种决心的体现。

Brand Vision ／ 品牌理念

"The positive spiral of mutual understanding and improvement"

"激发共鸣、相互促进、共同提高"

Mutual Refinement of Sensitivity
共同磨炼感性

Sharpen your senses and grasp a sense of the happenings in the world actively. Maximize the powers of your imagination, and go beyond the boundaries of oneself and others. In this manner, the world demands this "sensitivity" for taking ownership of challenges. We put into practice education and research that seek to mutually refine this "sensitivity."

磨炼自己的感官，使其能够积极敏锐地捕捉世界上的变化。最大限度地发挥想象力，超越狭隘的自我与他人的界限，将人类共同的课题当做自己的应尽责任。世界需要这样的"感性"，而共同磨炼这样的"感性"，也是我们的教研目标。

Unlock Wisdom
共同开启智慧

Question what happiness for the world is, and ask what one should do in order to understand and resolve issues. With a persistent spirit of inquiry, we must break through the barriers of rigid and fixed concepts. In this way, the world demands wisdom that captures issues from many perspectives. We put into practice education and research that unlock wisdom.

追问什么是"全世界的幸福"，自己为理解和解决社会问题该做些什么。永远秉持探索之心，不断超越固有的观念，从多个角度去把握当代的课题。世界需要这样的"智慧"，而共同开启这样的"智慧"，正是我们的教研目标。

Strengthening the Ability to Create through Mutual Influence*
共同提高共创力※

Solving problems by cooperating with others. Crossing boundaries between values and languages with sincerity and ability to take action. The world demands this ability to create through mutual influence, which resolves issues through the impact that different forces have on each other. We put into practice education and research that seek to strengthen this ability to create through mutual influence.

*This refers to the creativity occurring when people with different values and languages come together and act upon each another. It is a concept we created which derives from the philosophy of origins in Buddhism.

与他人协作共同去解决问题。以真诚和行动力超越价值观和语言的差异，在不同力量的交叉互动中去解决我们所共同面对的课题。世界需要这样的"共创力"，而共同提高"共创力"，同样也是我们的教研目标。

※ 共创力：指的是价值观和语言各具差异的人们相互影响、联合起来进行共同创造的一种力量。"共创"这个词汇是我校根据佛教的缘起观而发明的。

Message from the President ／ 校长致辞

An Educational Philosophy for the Future

Musashino University's educational philosophy is based on the "four great vows," the fundamental spirit of Buddhism, and the foundation for character building education. Our founder, Dr. Junjiro Takakusu, established the Musashino Joshi Gakuin school for girls at Tsukiji Honganji Temple in 1924; our university continues to reflect his aspirations today. Now, 102 years later, Musashino University operates on two campuses, the Musashino Campus and the Ariake Campus, offering academic subjects in 21 departments over 13 faculties.

Society is changing rapidly, and expectations toward higher education are beginning to change as well. Universities must offer their students not only specialized knowledge but also nurture their ability to create a path to the future. Addressing questions such as how to help students acquire not only knowledge but also learn how to use that knowledge for the benefit of society, and how to employ their learning so as to bring happiness and help solve social issues, will be an important component of university education from now on.

Supporting Student Success

In the eyes of Musashino University, Student Success means helping our students picture their future and their goals and acquire the skills and mindset enabling them to contribute to society while at the same time experiencing personal growth. This means not simply ensuring that students fulfill academic requirements and graduate but helping them experience personal change through learning and having a firm grasp on the future. All these, taken together, are how Musashino University measures Student Success.

To make this possible, emphasis is placed on experiences outside the classroom. For example, in their first year, students participate in Field Studies. This is a unique program whereby students have direct experience with society to give them an opportunity to explore the utility of their studies and envision a future career. This program takes place abroad, in Japan, and the neighborhoods surrounding the university, allowing the students to see with their own eyes and interact with others on site, to experience how what they are learning at university connects with the wider world. These experiences enable students to situate their main area of study within society and discover the meaning of learning for themselves.

Learning Expands Through Experiences and Minor Subjects

In addition to these experiences, another major component of studying at Musashino University is the addition of a minor field of study to the main subject students take in their respective faculties and departments. This gives students new strengths for responding to the social changes taking place around them. For example, the AI Utilization Expert Course is available to all students (except for those in the Faculty of Data Science) through on-demand or online lectures.

The advance of AI is changing society, how people learn and how they work. In the coming years, many people will use AI in their studies, their work or their personal lives. Understanding AI and acquiring the skills to use it appropriately, therefore, will be an important asset for broadening opportunities in life. That is why this school emphasizes nurturing young people, regardless of whether they are arts or science majors, to be knowledgeable both in their fields of study and AI. I hope that combining AI with academic knowledge will give our students the ability to create new value in service of society.

A University Creating Peace & Happiness for the World

Over the past 20 years, Musashino University has established many new faculties, departments and graduate schools. The Faculty of Data Science, the Department of Sustainability Studies, the Faculty of Well-being and many others with a strong connection to contemporary social issues were created to promote deep examination of those issues. With life changing at a fast pace now, learning is essential for equipping students to work together with others to achieve solutions.

At Musashino University, the emphasis is on cultivating a view of humanity rooted in our educational philosophy and nurturing students who can take on the challenges of a new era. We support each student's personal growth so that they can develop into individuals who contribute to society. In keeping with our motto of "Creating peace & happiness for the world," we aim to develop a new form of higher education, and we look forward to your support.

Dr. Takako Konishi
President
Musashino University

武藏野大学 校长
小西 圣子 博士

继往开来，传承建校精神

本校以“基于佛教根本精神——四弘誓愿的人格教育”作为建校精神。创校人高楠顺次郎博士于关东大地震（1923 年）的次年，在筑地本愿寺境内创办了武藏野女子学院。这一志向跨越时代，至今仍在本校得以传承。历经 102 年的发展，如今的武藏野大学已发展成为一所拥有武藏野校区和有明校区等两大校区，下设 13 个学院、21 个学科的综合性大学。

在社会发生急剧演变的背景下，对高等教育的要求也在不断变化。大学不仅要向学生传授专业知识，更要培养他们开拓未来的能力。学生不仅要学习知识，更要思考如何在社会中运用这些知识，以及如何将自身的专业能力与人们的幸福及解决社会问题联系起来。直面并应对这些需求，对于今后开展大学教育至关重要。

支持每一位学生成长的“学生成功”机制

武藏野大学所倡导的“学生成功”，是指支持每一位学生描绘自己的未来蓝图和目标，使学生在实际感受到自身成长的同时，逐步掌握能够为社会做出贡献的技能与心态等系列措施。这绝不仅仅意味着获得学分并顺利毕业，而是要让学生在学习过程中察觉自身的变化，深化专业素养与兴趣，从而能在将来获得切实的成就感。正是这种点滴积累，才构成本校所追求的“学生成功”。

为了实现这一目标，武藏野大学高度重视突破课堂局限的“体验式课程”。例如，大一学生需修读“实地研究”的必修课程。这是本校独有的一个教育项目，旨在让学生到现实社会中进行亲身体验，思考专业学习的价值及未来职业发展。学生将在海外、国内或大学周边地区，亲身感受自身与社会的关联。通过亲眼观察、与人交流互动、接触现场一线，学生将切身感受到大学所学内容如何与社会紧密相联。通过这些体验实践，学生将明确自己在社会中的专业定位，并从自身角度领悟学习的意义。

通过体验与辅修拓展学习领域

与体验性课程并列的另一大支柱，便是辅修制度的设置。武藏野大学所设置的辅修制度，力求让学生在所属学院、学科的专业领域之外，还能掌握适应社会变化所需的新能力。其中，“AI 应用专家”课程面向所有学院（除专业领域重叠的数据科学学科专业外）的学生开放，学生可利用点播课程和在线课程进行学习。

AI（人工智能）的发展正深刻改变着社会形态以及人们工作和学习的方式。未来社会将迎来人们在各自的专业领域、工作和生活中广泛运用 AI 的时代。理解并恰当运用 AI 的技能，将成为拓宽各位学生未来选择范围的重要能力。正因如此，本校希望跨越文科与理科的界限，培养具备“AI× 专业”能力的人才。我们期待学生能通过将 AI 知识与自身专业相结合，掌握创造新价值的能力。

成为“将世界的幸福具象化”的大学

武藏野大学在过去 20 余年间，积极推进学院、学科及研究科的设立工作。数据科学学院、可持续发展学科、幸福共生学院等都是致力于应对现代社会课题而新设立的学院与研究科。在瞬息万变的时代，这些学习内容对于培养发现社会课题并与他人协作解决问题的能力至关重要。

立足于建校精神的人文理念，以及对新时代的挑战，是武藏野大学同时珍视的两个方面。与此同时，我们还将为每一位学生的成长提供支持，培养为社会做出贡献的人才。为了打造一个能够“将世界的幸福具象化”的崭新高等教育平台，我们将继续与大家携手前行。

Kasai International Dormitory

Kasai International Dormitory was founded on April 2015 as a space where we put into practice the development of global graduates. The five-floor building has 86 rooms, as well as a community lounge on the first floor. International students from around the world, bringing diverse values and a rich global diversity, live and study here together with Japanese resident assistants (RA), contributing to the promotion of mutual understanding and the formation of a wide range of interpersonal relations.

葛西国际宿舍

我校于 2015 年 4 月开设了“葛西国际宿舍”，这里是培养国际化人才的实践场所。宿舍为 5 层，拥有 86 个独立的房间，在一楼还设有公共交流空间。从世界各地聚集而来、价值观各异、国际色彩浓厚的外国留学生们与担任 RA（宿舍生活助手）的日本学生在这里一起学习和生活，达到了增进彼此理解、形成广泛人际关系网络的效果。

Instilling adaptability and sound values in a ceaselessly changing modern world

In today's era of rapid change, our important mission is to help students develop the ability to cope with change. At our junior and senior high schools, we use interactive teaching to stimulate research and inquiry. Students are also given plenty of time to produce output, to ensure that they are keeping up academically and to foster an academic mindset and a spirit of entrepreneurship, qualities essential for the society of tomorrow. The numerous lessons and activities we offer to build on students' enthusiasm and problem-solving are designed to pique their curiosity to see and try new things and make the most of their formative years.

Meanwhile, in a ceaselessly changing world, our focus is on nurturing young people with sound principles grounded in the ethics and views of the Buddhist sentiments on which our schools are founded. We want to instill these sentiments—cultivating sensibilities that include respect for life and gratitude for blessings, a desire to better oneself, and a spirit of gentleness and giving toward others—in our young people, so that they can make a daily effort, no matter how small, to improve their lives and those of others.

Individuals with this ethical compass can thrive, no matter what the future brings, and can undoubtedly be called true global leaders.

在瞬息万变的现代社会中培养应对变化的能力，构建坚定价值观的教育

当今世界瞬息万变，培养学生应对变化的能力是学校肩负的重大使命。武藏野大学附属初中和高中通过大量的探究型互动式教学，在表达能力的培养上也投入充足的时间，让学生在巩固学习能力的同时，培养未来社会所需的学术意识和创业精神等资质。我校以“热情”与“挑战”为口号，在课堂和活动等校园生活中埋入许多激发学生好奇心的“彩蛋”，让他们乐于去观察、去尝试。希望大家能在我校度过宝贵的青春岁月。

另一方面，在瞬息万变的现代社会中，我校还是一所培养能在生活中始终坚定不移地专注目标，坚守原则的年轻人的学校。该原则正是我们的建校精神，即基于佛教情操的伦理观和世界观。怀着对生命尊贵的感性和对天地恩赐的“感恩”之心，克服贪图个人安逸，培养积极进取的上进心，怀着帮助他人的善良和奉献之心，我校希望培养具有这种“至少日行一善”、“日拱一卒，功不唐捐”，哪怕微不足道，也能不懈努力等情操的年轻人。

我们坚信，拥有这种道德情操的人，无论在什么样的社会，都能找到大显身手的用武之地，这种人才才配得上被称为真正的全球领袖。

A School Creating New Values

School is where students shape the future.

Everywhere we look today, people are suffering from conflict and devastation at this very moment. Economic inequality continues to grow and planet Earth's environment is worsening. Intractable problems remain, no matter how much human wisdom is applied to them.

But it is up to our generation and yours to create an exciting future, while addressing the problems of the present. Today's young people are the future of the planet.

At this school, research activities for addressing humanity's unresolved problems and creating new values have begun in earnest.

An important part of the process is enjoyment. We hope to create an environment that makes students look forward even more to coming to school every day and spending as much time here as possible.

We will teach so that students can grasp the essence of a subject and experience the joy of learning. For example, we will inject humor into difficult subjects, to pique students' interest so that they will ultimately find the subjects exciting to sink into.

We will enjoy creating a future with happiness for all, together with our students.

创造新价值的学校

我们将学校定义为“学生创造未来的地方”。

放眼世界，此刻仍有无数人正遭受武装冲突的苦难。经济差距持续扩大，地球环境不断恶化。即使集结全人类的智慧也难以解决的问题层出不穷。

解决这些问题并创造令人兴奋、充满期待的未来，正是我们和你们这两代人的使命。地球今后的未来将由你来塑造。

本校已启动针对人类尚未解决的问题展开深入研究，以及在世界中创造新价值观的系统性研究活动。

在这个过程中，最重要的便是“感到快乐”的心情。我们将努力打造一所让学生比以往更渴望每天来校、渴望一直呆在这里的学校。

在学习方面，我们将抓住各学科的本质，开展让学习变得有趣的课程。例如，对于不擅长的学科或科目，我们从一开始就采用引入入胜的趣味（Fun）化教学方式，逐渐将其升华为乐在其中的兴趣（Interesting），最终营造出使人忘我的乐趣（Exciting）环境。

让我们一起享受学习的乐趣，共同创造一个包括自己在内大家都觉得幸福的未来。

Message from the Kindergarten Principal ／园长致辞

For well-being 20 years into the future

Our kindergarten focuses on education to ensure well-being 20 years into the future and happiness for all. Cultivating the values of happiness, purpose in life, security, welfare, health and peace, we offer education to enable children to create happiness for themselves and others.

To ensure all children's happiness, we will create an environment that emphasizes the spirit of exploration and that nurtures strong self-esteem. The spirit of exploration can be described as proactive engagement with people or things a child likes, can become absorbed in or talk about, and can express in words. Strong self-esteem describes a child who is comfortable with who they are, and can embrace not only their favorite activities and success, but also the experience of continuing to accept themselves in the wake of failure. By providing an environment that encourages a child to find a favorite activity or something they excel at, and by maximizing the potential of everyone until their university years, we will create well-being for children and adults alike.

以 20 年后的幸福为目标

本园的教育是以 20 年后的幸福为目标的教育。为了让所有生命都能幸福，本园的教育让所有的孩子在重视幸福、人生意义、安心、福利、健康、和平等价值的同时，也能够创造自己和整个社会的幸福。

首先，为了让所有孩子都能幸福，本园特别注重培养孩子的强烈的求知欲和高度的自我肯定感。所谓的强烈的求知欲就是指对于自己喜欢的事物、人物，主动与其互动，并且深入探索研究，与其对话交流，表达自我想法。而高度的自我肯定感则是不仅能接受深入探索研究喜好及擅长的事物时的自己或者成功时的自己，也能对于碰到挫折或者失败仍然坚持挑战的自己给予肯定，从而保持一种喜欢自己的状态。通过这样的教育，营造出广阔的让孩子容易发现自己喜好或者擅长的事物的环境，同时充分利用幼儿园到大学的多元化人才资源，从而实现儿童与成人都能幸福的目标。

Educational Philosophy ／教育理念

Resonating Nursery Education

Children learn to utilize their capacities and potential to the full and are encouraged to develop self-actualization to discover what they like with perseverance.

Vigorous Play, Zest for Life

Children learn through play. Being absorbed in play helps them discover wonders and develop curiosity and the spirit of exploration. Experiencing the fun of play and feelings of pleasure and accomplishment at doing things with others helps them develop self-esteem, which is the source of zest for life.

Feeling secure surrounded by teachers and peers, children are free to play to their hearts' content and develop a zest for life.

Developing Rich Sensibilities by Experiencing What Is Real

A variety of exciting programs operated in collaboration with Musashino University and specialist institutions provide children with rich experiences. A new program begun in the last year introduces children to play through exercise, where they learn to enjoy themselves through physical activity. Other programs include science, play in English, ICT (information and communications technology), growing and harvesting crops, and food education. The “Forest of Books” library provides storytelling and exposure to books. The wealth of experiences offered is designed to develop children's rich sensibilities.

To support child-rearing, this childhood education center provides nursery services on an as-needed basis and stages events for preschoolers. Through the opening of the nursery's playground to the public, provision of advice on child-rearing and other activities, this nursery encourages interaction with the community.

The Spirit of Buddhism

Buddhist teachings are communicated at morning prayer and in daily life. Contact with animals and nature and spending time with their peers helps children develop with a kind heart and respect for life and who can express gratitude for blessings in this world.

呼应共鸣的教育与保育

我们将致力提升儿童的“自我实现能力”，即充分发挥自身能力与潜能、发现自己想做的事情并坚持不懈付诸行动的能力。

尽情玩耍，培养生存能力

儿童通过玩耍会学习许多事物。通过自发的尽情玩耍，他们会发现事物中不可思议的奥秘，从而激发好奇心与探索精神。通过感受创造性玩耍的乐趣、与伙伴们共同创造的喜悦与成就感，能够培养“生存能力”的根源——自我肯定感。

在与保育者和伙伴们安心相处的环境中、尽情玩耍，培养“生存能力”。

接触真实事物，培养丰富感性

在与武藏野大学及专业机构合作开展的“兴奋期待计划”中，孩子们能通过接触真实事物获得丰富的体验。从上一年度开始增加了“运动游戏”环节，通过有趣的活动锻炼身体。此外还开展科学、英语游戏、ICT（信息通讯技术）、田园体验、饮食教育等活动。同时还利用图书室“绘本之森”开展故事讲读和读书活动，通过多样化体验培养孩子们丰富的感性。

我们提供育儿支援临时保育室、面向未入园儿童的活动、儿童园庭院开放、育儿咨询等服务，是一所重视与社区交流的开放式儿童园。

珍视佛陀的慈悲之心

通过早课和日常生活传扬佛陀的教诲。此外，通过接触自然、与动植物互动，以及与伙伴们相处，让孩子们意识到生命的珍贵，感恩万物的恩惠，从而培养心地善良的孩子。

Message from the Kindergarten Principal ／园长致辞

Our Philosophy: Resonating Nursery Education and Self-Actualization

The Ariake Center for Early Childhood Education and Care, which is both a kindergarten and a nursery, is a certified childhood education center which also supports those rearing children in the local community. Founded in 2020, Ariake's philosophy is “resonating nursery education” focusing on the five elements of “little friends,” “discovery and wonder,” “physical and emotional health,” “the unknown world” and “life” to realize this.

Children are encouraged to follow and deepen their interests and achieve goals set for their chosen path toward self-actualization. We aim to provide education and care that draw out each child's potential and enable them to express their strengths and individuality.

教育理念是“呼应共鸣的教育与保育”，以及“自我实现”

有明儿童园是一所兼具幼儿园和托儿所的功能，并开展社区育儿援助的“幼保联动型认证儿童园”。在 2020 年成立时，我们提出的教育理念是“呼应共鸣的教育与保育”。为了实现这一理念，我们提出了“伙伴”、“发现与感动”、“心灵与身体”、“未知的世界”和“生命”等五个主题。

通过拓展和深化兴趣与关注点，培养儿童自主开拓人生道路、实现目标的“自我实现能力”。我们致力于开展能够激发每一位儿童的潜能、使其充分展现个性与才能的教育与保育工作。
